SELECTED SKILLS

Communication: Product Demonstration, Discovery, RFP Selection and Completion, Lead generation,

Cross Functional Communication and Collaboration

Techniques: Data Analytics, Agile Development, Pair Programming, Test Driven Development,

RESTful Design, Service-Oriented Architecture

Front-End: JavaScript ES6 (most experienced), ReactJS, jQuery, AJAX, CSS, HTML

Back-End: Java (dabbled in), Python (dabbled in), Node.js, Express, MySQL, PostgreSQL, MongoDB

Tools: Git, Docker, AWS, Chart.js, Heroku, Webpack, Babel, Trello, Artillery.io, Knex

SOFTWARE ENGINEERING EXPERIENCE

Contract Software Engineer | Giide [Deployed Site]

MAY 2020 - AUG 2020

- Used ReactJS to build static website pages and deployed using AWS S3
- Implemented client designs with priority on responsive design and cross browser compatibility
- Created a contact form to collect user input and pass information to the appropriate API call
- Prioritized scalable and maintainable solutions and optimized content for SEO
- Communicated with a remote team to manage deadlines and expectations

Full Stack Software Engineer | Used Vehicle Web App Project [Github] FEB 2020 - APR 2020

- Used Agile methodologies to create and improve a microservice for vehicle recommendations
- Designed and populated PostgreSQL and MongoDB databases with 10,000,000 unique records
- Improved query performance via indexing for Postgres by 400% and 150% for MongoDB
- Used inherited React front end to develop appropriate API endpoints using Node.js and Express
- Achieving 1,000 RPS locally during stress testing using Artillery.io
- Migrated and deployed service on AWS using Docker containers and EC2 t2.micro instances

SELECTED PROFESSIONAL EXPERIENCE

Manufacturing Sales Engineer | Rexnord Industries

JAN 2016 - AUG 2016

- Led sales process from discovery to product selection for carbon fiber industrial products
- Demonstrated product value by communicating technical information to prospective customers
- Promptly responded to inside sales tasks such creating quotes, orders, and statement of works
- Supported existing customers and facilitated lead generation on new customer projects
- Generated technical documentation for custom products and Statement of Works

Manufacturing Engineer | Carefree of Colorado

SEPT 2016 - JAN 2020

- Designed, specified, and built machines to automate manufacturing processes using PLCs
- Reduced labor by 20% and increased annual profit of replacement canopy products by \$3,000,000
- Proactively collaborated with other teams to ensure compatibility of production equipment
- Managed two Engineering Technicians during projects to reduce time to production

EDUCATION

Galvanize | Hack Reactor Software Engineering Immersive Program

FEB 2020 - MAY 2020

18 week full time in person software engineering bootcamp specializing in full-stack development

University of Nebraska - Lincoln | BS in Mechanical Engineering

AUG 2009 - MAY 2014

- Received Engineer In Training (EIT) certification
